## PHILOSOPHY

The skin is like any other system in the body; it responds according to how it is taken care of. Science and experience proves that if introduced to the right ingredients and treatments, the skin becomes healthier, and damage can be reversed to a measurable extent. At Skinlogic Skin Center, we are proud to have seen many positive results with our practices. We stand by our 'smart skin' philosophy to 'teach' the skin to be the best it can be. You cannot trick the skin or manipulate it too aggressively, with that in mind, our treatments and products are carefully chosen.
